## Mounting System

Designed for seamless integration, the m!ka systems provides you with an elegant and powerful combination of components. Design your individual setup in the most flexible way.

YELLOWTEC

Designed as a versatile system, any m!ka element is compatible with a whole range of mounting devices. Combine components according to your needs.

Individually adjust your m!ka setup to your microphone's or monitor's weight. You achieve perfect hold in any desired position.

Made of sturdy anodized aluminum, all m!ka components come as rugged premium constructions. Nearly all elements are available in aluminum and black color.

Choose m!ka Mic Arms with dual color white/red On Air indicator to signalize multiple statuses. It comes with premium CleanVision® lighting characteristics.

Thanks to QuickFix and a VESA75/100 adapter, any kind of monitor can be securely fastened to any m!ka Monitor Arm within seconds.

Choose m!ka add-ons to integrate other gear into your setup and achieve maximum flexibility just the way you need it.
